

The numbers are almost too big to believe.

Every **five seconds** that the Federal bureaucracy is open, **the government spends \$1 million.**

Who pays for this spending spree?

You do — every penny of it, whether directly or indirectly through your income tax or indirectly through business taxes.

It doesn't have to be that way, though. With less government and dramatically lower taxes, you could keep more of what you earn — and not have to worry about red tape, audits and IRS harassment.

The U.S. Government Spends
\$1,000,000
Every Five Seconds!

Yes! I'm interested in learning how we can start to slash taxes! Please send me your free, no-obligation package.

Name: _____

return this coupon to:
Libertarian Party of New York
PO Box 728, Bellport, NY 11713

or sign up at <http://ny.lp.org/join/>

The Libertarian Party believes that your taxes should be *much* lower — and we're working every day to achieve that goal. Libertarians believe that if Government were limited to protecting our lives, our Constitutional rights, and our property, then it could do those

things better at *a small fraction of the cost.*

If you agree that action is needed now to start slashing government spending — and the taxes you pay — then please use the attached coupon to request additional information about the Libertarian Party.

Act now. Every five seconds you wait is another \$1,000,000 of *your* money wasted!

Visit your local Libertarian website at
